

Manager, Student Inform

From: CMC_Students
Subject: EM: campaign help!

On Behalf Of Susan Phillips

Hello 7-C students: please forward this to your student listservs on behalf of Ontario for Agriculture.

As many of you know, the Redford Conservancy along with a coalition of community partners called Ontario for Agriculture has been working on a campaign related to the building of a warehouse on prime farmland in Ontario. This battle is over 219 acres of land, but it's actually about something much bigger--the future of our region, and a demonstration of the kind of world we want to see that benefits local communities and the environment and that prioritizes community voice.

In order to make this change, we need your help.

We need to recruit as many volunteers as possible for canvassing in the next 30 days. The volunteers will be a mix of community members, interested persons, and, of course, students!

We are planning a kickoff event and training that we hope you can be part of before getting you out onto the streets to make change. These activities will start next week and possibly as soon as Sunday.

Please go to ontario4agriculture.com and signup under the volunteer tab.

In order to help collect signatures you MUST be 18 or older. We will try to arrange transportation for those who need it.

Thank you for your support,

Susan A. Phillips

Professor of Environmental Analysis

Associate Dean, Pitzer College

Director, Robert Redford Conservancy for Southern California Sustainability

Faculty Director, Community Engagement Center

Author of [The City Beneath: A Century of Los Angeles Graffiti](#) (Yale University Press, 2019).
