Subject: EM: Neuroscience Related Speaker this Friday Hahn 101 Pomona

From: Tom Borowski

Claremont PEACE, Psychedelic Education Advocacy and Community Engagement, is a 5C club with the aim of educating the 5C community on the growing field of psychedelic medicine/therapy.

We're bringing in two speakers from TREAT California - a citizen-led ballot initiative seeking \$5B in funding for research and access to psychedelic medicines - on **October 20th at noon in Hahn 101, Pomona Campus**. One is a veteran discussing treatment of PTSD with psychedelic assisted therapy, and the other is a licensed MDMA assisted therapist who will discuss the future of psychedelic advocacy. Should be a super interesting and informative talk. All are welcome!
