### ***Jodi Magness***

Since 2011, Professor Jodi Magness has been directing excavations in the ancient village of Huqoq in Israel's Galilee. The excavations have brought to light the remains of a monumental Late Roman (ca. 400 CE) synagogue building paved with stunning and unique mosaics, including biblical scenes and the first non-biblical story ever discovered decorating an ancient synagogue. In this slide-illustrated lecture, Professor Magness describes these exciting finds, including the discoveries made in the last season.
