**Subject:** EM: Team Master's Program Information Session this Th (3/7) from 12:15-1:15pm

---

**From:** Wenzel, Anna

Hi Everyone,

This Thursday, I will be hosting representatives from KGI to discuss opportunities for students to complete their capstone projects via a Team Master's Project (TMP). A TMP thesis allows students to complete a real-world problem-solving experience in the biotechnology industry. In addition to thesis opportunities, we will be presenting information on KGI's new 4+1 Master's program. Please see the attached flier.

**KGI Team Master's Project (TMP)**

**Q&A INFORMATION SESSION**

**Date: Th., Mar. 7, 12:15-1:15pm**

**Keck127**

Interested in fulfilling your capstone requirement by doing a thesis that involves a real-world, problem-solving experience in biotechnology? Come hear members from KGI and Keck outline this unique thesis opportunity for both science and economics majors!

Info on KGI's new 4:1 Master's Program as well!

Here are the details:

Date: Thursday, March 7

Time: 12:15-1:15 pm

Location: Keck127

FREE pizza will be served

For additional information regarding TMP, please see: <https://www.kgi.edu/about/corporate-industry-partners/team-masters-project/>

## Team Master's Project

KGI has completed more than 300 projects for leading companies in the biotech, pharma, and medical device industries.
