From: RRC

WEBINAR: Effective Implementation of Climate Action Planning

Need help with developing climate strategies and finding funding for your city's General Plan or Climate Action Plan? This webinar will help!

Two Dates:

March 27, 2024 at 7:00pm - 8:00pm

<https://pitzer.zoom.us/j/85834481358>

AND

March 28, 2024 at 2:00pm - 3:00pm

<https://pitzer.zoom.us/j/85834481358>

COST: FREE

We will review tools to help in the development climate policies as part of your city's General Plan or Climate Action Plan. The Robert Redford Conservancy (RRC) will provide cutting-edge information to assist with funding support, specific guidance and challenges and opportunities for building capacity in three specific climate policy areas:

- Decarbonization of Buildings
- Zero Emission Vehicle Adoption
- Reducing Vehicle Miles Traveled

In the one-hour webinar, the RRC in conjunction with UC Davis and Cal Poly - SLO seek to equip local and regional governments, their representatives, and stakeholders with strategies and tools to overcome challenges and barriers to implementation of climate action policies and activities.

With generous support from the California Air Resources Board (CARB), UC Davis and Cal Poly SLO have conducted trailblazing research and developed cutting-edge resources, including the first databases of California General Plans and Climate Action Plans. In this webinar, we will provide local and regional governments, as well as private organizations and community stakeholders, with invaluable tools to help align their plans with California's sustainability and climate commitments, specifically:

- Carbon neutrality goals,
- Increased zero-emission vehicle use, and
- Reduced reliance on renewable and zero-carbon energy sources.

Registration is **FREE**, commitment is minimal, and the takeaways are essential. Together, we can build comprehensive Climate Action Plans that project the State of California toward a sustainable and healthy future. Any questions, contact teresa_spezio@pitzer.edu.

In Gratitude,

The Robert Redford Conservancy Team
