THIS WEEK AT KECK SCIENCE

This is our weekly email to all students at our colleges (CMC, Pitzer, and Scripps) with information about Events, News, and Opportunities at Keck Science Department! We hope this increases access to opportunities and helps build community for students, faculty, and staff of the Keck Science Department.

In addition to this weekly email, we also have created a website detailing research at Keck and available student opportunities: sites.google.com/view/research-at-keck/ All community members (including student organizations) are welcome to submit an item for this weekly email to our form: <https://forms.gle/KxWDCnPoUJMOTEN8>.

THIS WEEK'S EVENTS

4/15: Course Registration & Canes! Unsure of what courses to take to satisfy your major/pre-health requirements? Join the Keck Pre-Health Ambassadors and the Keck DEI Committee and enjoy Canes while you get answers to your questions regarding courses! The event will be held on Monday, April 15th from 7-9 PM in Keck Science Building Room 1! Register [here](#)!

4/16: 5C Chemistry Seminar. Our next 5C Chemistry Seminar will take place on Tuesday, April 16 from 11-12 in Seaver Auditorium on the Pomona campus. Our speaker will be Maddie Deem from Merck. Dr. Deem's title is "Automation and Process Chemistry in the Pharmaceutical Industry." Contact: bcaulkins@scrippscollege.edu for more info.

4/18: Dinner and Speaker Event Honoring Prof. Katie Purvis-Roberts. The Women and Minority Voices in STEM club is hosting a dinner followed by a talk by Prof. Katie Purvis Roberts on April 18, 2024, in the Hampton Room from 6-7:30pm. Prof. Purvis-Roberts will share her experiences as a woman in science from Keck to the State Department making scientific discoveries, shaping environmental policy, and fostering thriving collaborations. RSVP [here](#) for dinner. Contact: bcaulkins@scrippscollege.edu

THIS WEEK'S NEWS

Whitney Lieberman (CMC '20) receives prestigious PhD fellowship. Whitney Lieberman was awarded the F31 fellowship from the National Institutes of Health! The award supports her ongoing PhD research studying chromatin remodeling and disease with Cigall Kadoch at Harvard University.
