Hey CMC!

We are excited to invite you to the Claremont Accelerator's first **Demo Day**. Join us on **November 22nd at Freeburg Forum (LC62)**, or online via zoom, to meet some of the most promising student entrepreneurs from the Claremont Colleges.

Event Details:

- **Date:** Friday, November 22nd
- **Time:**
 - 4:30 PM - 5:30 PM: Startup Pitches
 - 5:30 PM - 6:00 PM: Networking Session (snacks and drinks will be provided)
- **Location:** LC62 (Freeburg Forum)
- **RSVP Form:** <https://lu.ma/do6yqegg>

Featured Startups:

- **GlamUp (Cohort I)** – Alongside her co-founder YC '21, Nicole Cheung '25 is building a personalized AI beauty app. Glam Up provides facial analysis, color analysis, makeup guides, and product recommendations. Since April, the app has been downloaded more than 200k times.
- **ArtHub (Cohort I)** – Alongside a team of six, Ian Baime '24 is building a network of communities for creatives to share their work directly with other artists, experts, galleries, schools, and employers - all free from modern AI. Arthub is in partnership with the University of the Arts London.
- **Stratos Vanguard (Cohort I)** – Tony and Albert are working with Hedge Funds and VC Firms, providing them with custom-made full-stack AI products. They leverage machine learning to improve internal operational efficiencies and pricing algorithms. Previous clients have over 23B AUM.
- **BrAIIn (Cohort I)** – Jonny '25 (Ex-Goldman) and Claire '25 (TIME awardee) are building

an AI T.A. toolkit to save time for professors and help students learn. They have launched a pilot program at Harvey Mudd College this semester. They are being advised by the inventor of R.

- **InternHub** – Developed by a team of six seniors at Harvey Mudd, and sponsored by the HIVE and HMC's Clinic program, Internhub is an AI-powered online platform to guide students through the software engineering recruiting process. Their integrated solution offers alumni referral matching, interview simulations, a crowd-sourced application system, and more.
- **ExploraVist** – ExploraVist is an affordable, AI-driven device designed for the visually impaired. Easily attachable to any pair of glasses, ExploraVist reliably provides detailed descriptions of the user's surroundings in just seconds. With ultra-low production costs—under \$50 compared to the industry standard of several hundred dollars—ExploraVist offers industry-competitive performance at a fraction of the typical cost.

After each pitch, you'll have the opportunity to ask questions directly to each entrepreneur. Following the event, we will host a networking session with drinks and snacks provided.

We look forward to seeing you there!
