Join us on Friday, April 4 from 7:00-8:30 PM at The Motley Coffeehouse at Scripps College, where Nodutdol will be holding a teach-in on the **history of Korean resistance** and the ongoing struggle for Korea's national liberation through the lens of the 4.3 Jeju Uprising (April 3, 1948). Information around the Jeju uprising was heavily suppressed for decades by the South Korean government with the support of the US military. The teach-in will conclude with an overview of Nodutdol's "US Out of Korea" campaign, tying in lessons from the worker-led struggle of the Jeju Uprising that began in 1947, peaked in 1948, and continued after the Korean War.

Doors open at 6:30 PM – please arrive early for food, refreshments, and tabling. New merch and artwork available, including woodblock printing!

Nodutdol for Korean Community Development is an organization of anti-imperialist diasporic Koreans and comrades based in occupied Indigenous lands known as the United States and Canada. Nodutdol organizes for a world free of imperialism, and for Korea's re/unification and national liberation.

Masks encouraged except when eating or drinking, and will be available onsite.
