Hello,

I hope this email finds you well. My name is Cristina Medina and I am a CCAC fellow at Sustainable Claremont, reaching out with an upcoming local project in need of volunteers! I hope you don't mind me contacting you, Richard Haskell suggested I get in touch with you for some help getting the word out.

Sustainable Claremont is having their 9th rain garden installation for the district at Chaparral Elementary School and we are trying to host at least 50 volunteers. This build is made possible through grants that encourage strong community participation, and we would like to invite any students that may be interested!

Event details are as follows:

April 25th, 2026

9:00 AM - 4:30 PM

Chaparral Elementary School

[Chaparral Rain Garden Volunteer Sign-Up](#)

I would greatly appreciate it if you could pass this opportunity on to your students, faculty members, and anyone you may think is interested. Please feel free to reach out with any questions. Thank you so much for your time!

Best,
Cristina
